We build the future.

At STARX Industries we efficiently deliver sustainable and environmentally friendly modular solutions. Designed to benefit and increase living standards for both our customers and their surroundings.
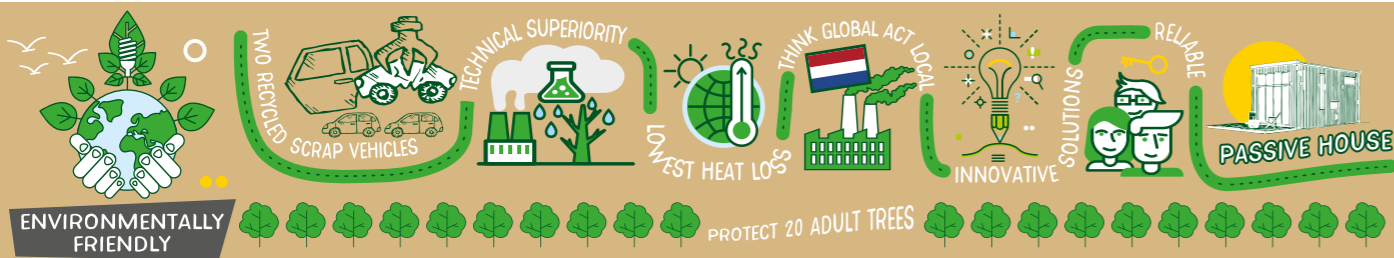

Our vision is to invite people into a future way of living by building new perspectives, ways to connect with nature and a sustainable circular aspect in the market.
In order to achieve our vision, we will trailblaze a pathe to delivering module homes that are prepared for future living, in the most efficient way.

We believe that smaller is bigger. Our aim is to introduce our customers to the perspective that smaller housing can bring you more flexibility, closer to nature and provide a bigger living experience, without losing any comfort or style.

STARX INDUSTRIES

Our sustainable solutions made from recycled materials, are produced in our own factory in the Netherlands, which is where the idea behind STARXmodule was born. STARXmodule was founded by a team with strong knowledge and many years of experience in production and logistics in the building construction business. A team with passion of wanting to evolve the business by introducing it to a new way of building construction to modular solutions.

TWO RECYCLED SCRAP VEHICLES — TECHNICAL SUPERIORITY — LOWEST HEAT LOSS — THINK GLOBAL ACT LOCAL — INNOVATIVE SOLUTIONS — RELIABLE — PASSIVE HOUSE

ENVIRONMENTALLY FRIENDLY — PROTECT 20 ADULT TREES

ZANDVOORT
ON WHEELS

Zandvoort is one of our mobile modular houses of approximately 18 optimally planned square meters that gives a new meaning to the word 'flexibility'. Designed and developed into a modular house on wheels, you can now take your home to a calmer outdoor environment without having to reduce comfort or convenience.

Compared to caravans, tents or other camping alternatives, Zandvoort stands out from the crowd with its robust construction and equipment. Kitchen equipment, bathroom and bed used in our Zandvoort houses are of the same high quality you would have in your own home. You can even add amenities such as air conditioning and a dishwasher.

Zandvoort is perfect for those who do not want to compromise their comfort, even in the wild nature.
